52"/54" HIGH POOL WALL + IN-WALL ENTRY STEP SYSTEM

Introducing ASTRAPLATE — the next evolutionary step in above ground pools. The first in North America, a product that combines a PET foil (Polyethylene terephthalate) to the decorative side of the pool plus the added corrosion resistance on the inside of the pool with a Polyvinyl Chloride foil backer. Plus, our steel walls have 50% more galvanized coating than the competition for superior corrosion protection.

REVOLUTIONARY TECHNOLOGY

Benefits of PET Coating & PVC Backer

- Resists corrosion as a preventative barrier to the steel.
- Resistance to Scratching.
- Resistance to stains and cleaning products.
- Resistance against UV ageing.
- PVC backer up to 5 times thicker than traditional painted pool backers.
- PVC backer greatly improves resistance to corrosion in saltwater and chlorinated pools.
- 60 year warranty - 1st 3 years 100%, balance prorated.
